

Installation

To install iRed Lite, simply copy the application icon to any place on your hard disk:

You may also copy the **More Actions** folder into your Documents folder, e.g.

Removal of iRed Lite

Besides the application, iRed Lite writes files at the following locations in your home folder:

- **Library > Preferences > de.tinb.iRedLite.plist**
- **Library > Application Support > iRed Lite**

Just remove the application, the preference file and the folder with your action archive and you're done.

Have Fun,

Robert Fischer, [tin:b Software](http://tin.b Software), March 2007
